2013

From April 2013

## The Newbourne 40 Inset (4.5kW) Multi Fuel Stove

Recommended to Defra for Smoke Exemption Approval from April 2013

The **Newbourne 40 Inset** is a stylish contemporary inset convector stove designed to fit into a 16" x 22" standard UK fireplace opening and will add a lovely focal point to a room as well as improved efficiency over an open fire.

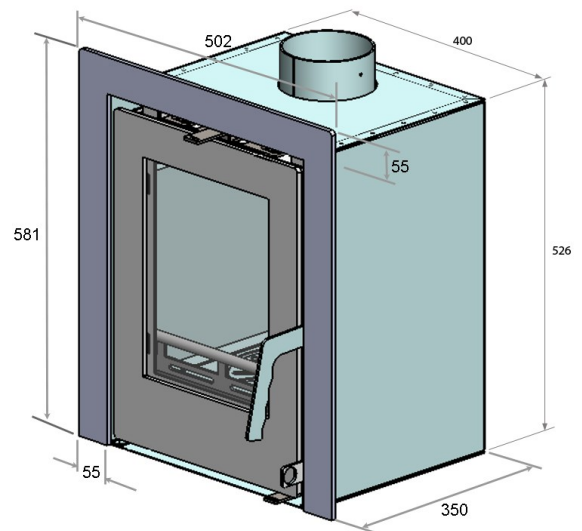

The stove is fitted with a built-in 3 sided frame, riddling grate, primary air control, secondary air wash to keep the glass clean, tertiary air to ensure high efficiency clean burn performance and convection heat tubes built into the firebox to produce even more useable heat.

With its easy cassette installation the stove is a dream to fit and a delight to operate and enjoy the lovely heat that this stove produces.

Exclusively available through authorised stockists throughout the UK.

Features include:

- ◆ Approved to EN13229 and **Defra** approved from April 2013
- ◆ Heavy duty construction
- ◆ Riddling grate
- ◆ Cleanburn performance with 82% efficiency
- ◆ Multifuel use
- ◆ Removable handle
